Steel Adhesive Weights

Our top selling adhesive weights, available in 1/4 ounce, 1/2 ounce and 1 ounce strips or rolls with a grey or black powder coat to accommodate to most commonly coloured rims.

Adhesive weights
 With their universal application abilities, our adhesive weights are an excellent alternative to traditional clip on weights. Our weights are manufactured with a high quality foam adhesive, tested to survive in our North American climate. These weights have a polyester powder coat applied to prevent corrosion, discoloration and protect from the elements.
